Education

VIT Bhopal University

B.Tech Computer Science & Engineering (AI & ML) | CGPA: **8.03/10.0**

Sept 2023 – May 2027

Bhopal, India

Montfort Inter College

Class 10 & 12 (Higher Secondary Education)

Completed 2023

Lucknow, India

Technical Skills

Languages: Python, JavaScript, C++, Java

Web & Backend: HTML5, CSS3, React.js, Node.js, Express.js, REST APIs, JSON

Databases & Tools: PostgreSQL (via Supabase), MongoDB, SQL, Docker, Git

AI & ML: LLMs, RAG, LangChain, TensorFlow, Scikit-learn

Soft Skills: Problem Solving, Debugging, Research, Technical Presentation

Work Experience

Future Smart AI

Remote

Content Research Intern [🔗 Link](#)

Sept 2025 – Feb 2026

- Researched **50+ emerging AI tools** across NLP, computer vision, and automation domains; evaluated features, practical use cases, and business applicability for content strategy.
- Published technical blogs and comparative reports on AI tool capabilities, workflows, and integration potential for product and content development.

Projects

Interview IQ [🔗 Live](#) | [🔗 GitHub](#)

July 2025 – Aug 2025

- Built a **full-stack web application** using React.js, Node.js, LangChain, and LLM; implemented backend workflows for uploaded notes, PDFs, and resumes to generate questions using RAG.
- Designed **REST APIs** for AI workflows, including document-based question generation, interview session handling, and response storage using **PostgreSQL (via Supabase)**.
- Integrated **VAPI** for voice-based AI interview simulation; added **AI answer evaluation**, progress analytics, and a **resume gap analyzer** for role-fit assessment.

AI-EchOo E-Commerce Platform [🔗 Live](#) | [🔗 GitHub](#)

Feb 2026

- Developed a **full-stack e-commerce platform** with user authentication, product catalog, cart, order tracking, payments, admin dashboard, and fully **responsive UI**.
- Integrated a **RAG chatbot** powered by Groq LLM and **PostgreSQL (via Supabase)** for product and order queries; used database retrieval for **hallucination-safe** customer support.
- Built API-driven admin workflows for adding and maintaining products and orders with secure authentication and **CI/CD-style** deployment for scalable user experience.

Desktop AI Voice Assistant [🔗 Live](#) | [🔗 GitHub](#)

May 2025

- Engineered a **Python-based voice assistant** with **speech recognition**, **text-to-speech (TTS)**, command handling, web search, media control, and browser automation.
- Built automation scripts for **Chrome browser control**, LinkedIn profile search, web scraping, and REST API workflows, demonstrating scripting and integration skills.

Achievements

Hackathon Winner – AI Demos Monthly Hackathon; placed 1st among **100+ participants** for innovative AI solution & technical presentation. [🔗 Link](#)

Published Carbon Credits Dataset on Mendeley Data for environmental ML research and carbon credit prediction. [🔗 Dataset](#) | [🔗 Predictor](#)

Certifications

- **Microsoft Azure Fundamentals (AZ-900)** – Cloud computing, Azure services, security [🔗 Certificate](#)
- **Applied Machine Learning in Python** – University of Michigan, Coursera [🔗 Certificate](#)
- **NPTEL Cloud Computing** – IIT Kharagpur [🔗 Certificate](#)
- **Face Prep MERN Stack** – MongoDB, Express.js, React.js, Node.js [🔗 Certificate](#)
